Ordering Information

What are mint (*) and CTO (◉) stamps? A mint stamp is one issued by the government printing office with full original gum, unhinged and not cancelled. A CTO (cancelled to order) stamp is an unaffixed stamp that has been cancelled by a postal authority to prevent its reuse.

What is a Marginal Inscription (MI)? The MI consists normally of the United Nations emblem and an appropriate text in four positions (A, B, C, D) on each sheet. Customers may order blocks of stamps from a specific corner of the sheet to maintain a consistent collection. A – upper left corner, B – upper right corner, C – lower left corner, D – lower right corner. Available only with a minimum order of block of 4, 6 or 10 stamps.

What are First Day Covers (FDC)? They are produced for each new stamp issue. For the three offices, there is one 'official' first day cover designed for each new issue. The covers, bearing the new stamps and the first day cancellations, are available on the day of the stamp issue in some or all of the following options:

Single	One stamp affixed on a standard cover per issued value
Combo series	All stamps for the issue for the currency affixed on a standard cover
M. I. Block of 4	One MI block of four affixed on a standard cover for each of the values issued
Triple	One jumbo size cover affixed with all stamps issued (all three currencies)
Jumbo/Mini-sheet	One jumbo size cover affixed with the full mini sheet of each value issued
Souvenir sheet	One cover affixed with the souvenir sheet
